Release Note for SmartVPN Client

Firmware Version:	5.3.0
Release Type:	Normal
Applied Operation System	Windows XP SP3, Vista 32-bit/64-bit, Windows 7 32-bit/64-bit, Windows 8, Windows 10, Windows Server 2012 R2

The Smart VPN Client is a VPN configuration utility. It makes VPN configuration easy for users. It could support the following VPN schemas, PPTP, L2TP, IPSec, OpenVPN, and DrayTek SSL Tunnel.

New Features

- Support the DrayTek VPN Matcher.
    - It helps the client to bypass the firewall or NAT device in front of the VPN server.
    - It can only be used behind Cone NAT environment.
    - Currently, SmartVPN Client only supports OpenVPN type by means of VPN Matcher.

Improvement

- Improved: Encrypt the SmartVPN Client config file for security.
- Improved: Support Mobile One-Time authentication method for IKEv2 EAP VPN type.
- Improved: Change the VPN type wording from "IKEv2" to "IKEv2 EAP".
- Improved: Add the program publisher info in Control Panel >> Program and Features for SmartVPN Client.
- Improved: Modify the Statistics window tab name for OpenVPN connection.
- Improved: Quoted service path for enhancing the security.
- Corrected: An issue of compatibility for Windows XP.
- Corrected: An issue of password reading when the folder name including a special character.

Known Issue

- None.
